# Aligned Leaders —

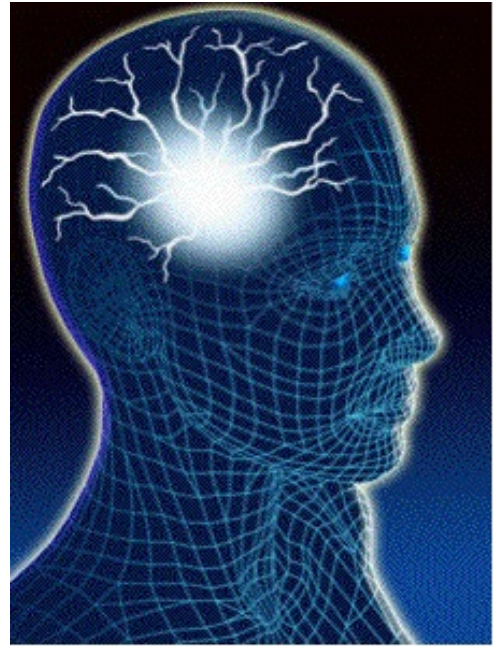

Respond to **AND** Initiate Change...

Balance Mindset **AND** Skill Set...

Align Conscious Goals **AND** Subconscious Beliefs

Co-create **AND** Innovate...

"Authenticity is the alignment of head, mouth, heart, and feet — thinking, saying, feeling, and doing the same thing — consistently. This builds trust, and followers love leaders they can trust."  
- Lance Secretan

## It's time to bring **WHAT WORKS**, to work!

**Effective leaders** understand **alignment is a dynamic process** that evolves continually as conditions and needs change. This kind of adaptability is **essential to thriving** in 21st century business.

Neuroscience shows that 95% of all thinking processes lie below our conscious awareness. To **create sustainable change, quickly and easily**, training and coaching must address the subconscious and how its underlying beliefs and biases direct all decisions and actions.

When subconscious beliefs support conscious goals and perspectives, **aligned leaders naturally orient themselves, and their teams**, toward sustainable success.

### In this **Essentials for Success™ Workshop** You Will Learn How To:
